To make the most out of these ambiances, we highly encourage you to purchase the full sample pack.

## Package Contents

This asset package features 4 out of the 10 original space themed soundscapes. We've made sure to keep this asset package as interesting and varied as possible, while making it extremely simple to implement into your own creations.

### IMPORTANT NOTE

Although this document shows the suggested use for this Sample Pack, creativity has no limits and we highly recommend that you also use these soundscapes outside of their intended use; who knows what they will bring? Last but not least, we always add an "\_Icon" file to each of our sample packs, which can be used to replace the existing icon of the sample pack's folder. This is done to offer a more personalized and branded experience.

*All audio files are subject to the Store LICENSE.*

"We hope you'll find this package useful while making your game. Let the space travel begin!"
